INDEX TO VOLUME 40

Acetic acid, Inhibiting effect of, upon micro-organisms in the presence of sodium chloride and sucrose..... 255
Acetylmethylcarbinol, Formation of, by cell-free juices. Abstract..... 156
Aciduric bacilli and dental caries. Abstract..... 161
Actinomyces species, A wide-range H-ion indicator produced by an. Abstract 168
Adams, S. L., Bilford, H. R., and Stark, W. H. Cleaning and disinfection of the wooden grids in a low temperature spirit still. Abstract..... 870
Aerobes, A comparison of different, under anaerobic conditions. Abstract. (No abstract.)..... 168
Aerobic bacteria, A preliminary investigation into the antigenic characters of spore-forming..... 45
Agar, The rôle of. The production of staphylococcal alpha-hemolysin..... 601
Agglutination-lysis test of sera from dogs in Pennsylvania, Incidence of canine leptospirosis as determined by the. Abstract..... 329
Alcohol tolerance of yeasts, Studies on. Abstract..... 462
Allen, J. H., and Fellowes, O. N. Some biologic characteristics of ocular strains of staphylococci. Abstract..... 151
Alpha-hemolysin, The production of staphylococcal. The rôle of agar..... 601
Ammonia, Effect of, on the germicidal efficiency of chlorine in neutral solution. Abstract..... 145
Antarctic, Some bacteria of the. Abstract..... 461
Antibacterial activity, Further studies of the, of some fluorinated aromatic mercurials..... 363
Antigenic characters of spore-forming aerobic bacteria, A preliminary investigation into the..... 45
— relationships of the coliform bacteria..... 101
Antipneumococcus rabbit sera, Titration of, by complement fixation. Abstract..... 164
Arthritis, The curative effect of certain gold compounds on experimental, proliferative, chronic, in mice..... 823
Aspergillosis in wild herring gulls..... 321
Atkin, Lawrence, Schultz, Alfred S., and Frey, Charles N. The biochemical classification of yeast strains..... 339
Atkins, K. N. Sterilization of drinking glasses by ultra-violet light. Abstract. (No abstract.)..... 466
Avian staphylococci, Observations on the pathogenicity of. Abstract..... 464

Bacillus cereus, The endogenous respiration of. III. The changes in the rate of respiration caused by sodium chloride, in relation to hydrogen-ion concentration..... 683
Bacillus, Gas production in nitrate sugar meat media by the genus. Abstract 157
— *larvae*, Relation of proteolytic enzymes to phase of life cycle of, and two new culture media for this organism..... 723

Bacillus, The demonstration of phosphatase in certain thermophilic species of the genus. Abstract 166
—, The taxonomy of the genus. I. Modes of spore germination 347
Bacteremia, Trout furunculosis—an epizootic. Abstract 155
Bacterial colonies, The five structures of. Abstract. (No abstract.) 163
—-fungus antagonisms. Abstract 144
— growth, Relation between food concentration and surface for 547
Bactericidal, The, power of sulfanilamide under anaerobic conditions 817
Bacteriogenic hemagglutinins. Abstract. (No abstract.) 870
Bacteriolysins, Studies on natural. Abstract 333
Bacteriophages active against mucoid strains of bacteria, Studies with 529
Bacteriophagy, The inhibition of, by cholesterol and by bacterial and non-bacterial phospholipids 517
Baker, Donald W., and Sawyer, John. Gastrointestinal worm parasitism acquired by sheep during the winter season. Abstract 166
Baker, Muriel, Stuart, C. A., Zimmerman, Alice, Brown, Carolyn, and Stone, C. M. Antigenic relationships of the coliform bacteria 101
Bang disease. Preliminary report of calfhood vaccination. Abstract 328
Barnes, Kathryn, and Raven, Clara. Incidence of canine leptospirosis as determined by the agglutination-lysis test of sera from dogs in Pennsylvania. Abstract 329
Barnes, M. F. Bang disease. Preliminary report of calfhood vaccination. Abstract 328
—. The rabies situation in Pennsylvania. Abstract 327
Bartholomew, W. V., and Norman, A. G. Cellulose decomposition by some aerobic organisms. Abstract 156
Bauer, Johannes H., and Horsfall, Frank L., Jr. Individual isolation of infected animals in a single room 569
Baylis, John R. The modern conception of the bacterial quality of water. Abstract 146
BCG immunization, Studies with. Abstract 150
Beahm, Edgar H., and Colien, Francis E. Streptococci from raw retail milk. Abstract 333
Bedell, Margaret, Lewis, Keith H., and Rettger, Leo F. Non-sporulating anaerobic bacteria of the intestinal tract. II. Growth-facilitating factors 309
Beebe, J. M. The morphology and physiology of certain myxobacteria of Iowa. Abstract 155
Bellew, H. P., and Roos, C. *Hemophilus pertussis* antigenicity. Abstract 325
Bender, Richard, Weber, George R., and Levine, Max. Effect of ammonia on the germicidal efficiency of chlorine in neutral solution. Abstract 145
Berry, George Packer, Williams, Clara H., and Sandholzer, Leslie A. The inhibition of bacteriophagy by cholesterol and by bacterial and non-bacterial phospholipids 517
Beta-hemolytic Lancefield group C streptococcus in bovine mastitis. Abstract 331
Bilford, H. R., Adams, S. L., and Stark, W. H. Cleaning and disinfection of the wooden grids in a low temperature spirit still. Abstract 870

Biochemical classification, The, of yeast strains 339
Biological materials, A motor-driven, mechanically supported ultracentrifuge for the separation of 657
Biosphere, On the microörganisms of the lower limits of the 379
Biotin concentrates, The effect of, on the growth of *Staphylococcus aureus*. Abstract 145
Blood agar plates, The relationship of serologic groups A, B, and C of Lancefield to the type of hemolysis produced by streptococci in 1
— human "stored," preserved with sulfanilamide, Immunological studies on. Abstract 152
Bock, Hans. Life on No Man's Land. Abstract. (No abstract.) 337
Bolyn, A. E. The standardization of snake venoms in mice in terms of hemorrhagic units. Abstract 330
Borden, David, and Kulp, Walter L. A study of *Proteus hydrophilus*. Abstract. (No abstract.) 465
Boroff, Daniel A., and Lackman, David. The vaccination of mice with a rough strain of streptococcus 373
Bovine mastitis, Beta-hemolytic Lancefield group C streptococcus in. Abstract 331
Bradford, W. S., and Scherp, H. W. The protective value of immune sera against murine infection produced by *Hemophilus pertussis*. Abstract. (No abstract) 167
Brown, Carolyn, Stuart, C. A., Baker, Muriel, Zimmerman, Alice, and Stone, C. M. Antigenic relationships of the coliform bacteria 101
Brown, Thomas M., Swift, Homer F., and Watson, Robert F. Pseudocolonies simulating those of pleuropneumonia-like mircoörganisms 857
Brucella cells, The presence of a capsule on. (Abstract) 162
—, Culture media for 637
Brumbaugh, Arthur. Regional ileitis. Abstract 462
Bruner, D. W., and Edwards, P. R. New types within group C of the genus *Salmonella*. Abstract. (No abstract.) 869
Buchanan, R. E. The implications of variability on the species concept in bacteriology. Abstract 153
Bucher, Carl J., Havens, W. Paul, and Reimann, Hobart A. Leptospirosis. A public health hazard. Abstract 329
Bunting, Mary I. A description of some color variants produced by *Serratia marcescens*, strain 274 57
—. The production of stable populations of color variants of *Serratia marcescens* #274 in rapidly growing cultures 69
Burris, R. H., and Wilson, P. W. Percentage utilization of substrates by the root nodule bacteria. Abstract 154
Burton, Eleanor P. Evaluation of gram staining. Abstract 143
Butyric-acid-producing plectridia isolated from hemp, jute and flax 665

Calder, Royall, M., and Kerby, Grace P. Culture media for *Brucella* 637
Calfhood vaccination, Preliminary report of. Bang disease. Abstract 328
Canine leptospirosis, Incidence of, as determined by the agglutination-lysis test of sera from dogs in Pennsylvania. Abstract 329

Canned foods, Methods of bacteriological examination of. Abstract..... 153
Capsule formation, Studies on. III. Inhibition of capsule formation of *Klebsiella pneumoniae* (Friedländer's bacterium) by an agent produced by a soil bacillus..... 415
Carcinogenic agents, The effect of, on single cell organisms. Abstract. (No abstract.)..... 330
Carpenter, Charles M., Leahy, Harold W., and Stokinger, Herbert E. The demonstration of phosphatase in *Neisseria*..... 435
Casman, E. P. The production of staphylococcal alpha-hemolysin: The rôle of agar..... 601
Catalase, crystalline, The sporicidal action of hydrogen peroxide and the use of, to dissipate residual peroxide..... 423
Cation adsorption by bacteria..... 23
Cell inclusions and the chromidial theory, The genus *Spirillum* Ehbg. with special reference to..... 271
Cellulose decomposition by some aerobic organisms. Abstract..... 156
— -splitting bacteria from human stools: a preliminary report. Abstract.. 146
Central New York Branch, S. A. B. Proceedings..... 165
— Pennsylvania Branch, S. A. B. Proceedings..... 461
Cheese, brick, Bacteriology of. Abstract..... 159
Chemotactic response to staphylococcus strains of varying pathogenicity... 239
Chemotherapeutic agents, The activity of..... 733
Chicago, Effect of sewage treatment and lake water diversion at, on sanitary conditions of main channel and the Illinois River. Abstract..... 146
Chlorine, Effect of ammonia on the germicidal efficiency of, in neutral solution. Abstract..... 145
Cholesterol, The inhibition of bacteriophagy by, and by bacterial and non-bacterial phospholipids..... 517
Christensen, C. W., and Schoenlein, H. W. The culture method for the detection and isolation of *Neisseria gonorrheae*. Importance and methods of supplying carbon dioxide. Abstract..... 162
Chromidial theory, The genus *Spirillum* Ehbg. with special reference to cell inclusions and the..... 271
Citrate, Coliform "mutants," with respect to the utilization of..... 467
Citric acid, Production of, by *Willia anomala*. Abstract..... 331
Clark, F. M. Thermophilic flat-sour organisms in some materials used in foods. Abstract..... 156
Clark, P. F. Further studies in experimental sub-acute bacterial endocarditis as a cause of death. Abstract. (No abstract.)..... 152
Cleaning and disinfection of the wooden grids in a low temperature spirit still. Abstract..... 870
Clostridium perfringens, Serological types of..... 441
Clowes, G. H. A., Powell, H. M., and Sparks, A. L. Common cold virus inoculations. Abstract..... 149
Cobalt and nickel salts, A comparison of, with other agents for the detection of hydrogen sulfide in bacterial cultures..... 449
Colien, Francis E., and Beahm, Edgar H. Streptococci from raw retail milk. Abstract..... 333

Coliform bacteria, An ecological study of the 83
— bacteria, Antigenic relationships of the 101
— bacteria, The relationship of CO_2 utilization to succinic acid formation by the. Abstract 158
— group, The use of sodium lauryl sulphate lactose tryptose broth as a primary medium for detection of. Abstract 143
— "mutants," with respect to the utilization of citrate 467
Collins, Ira G. The incidence of slow-lactose-fermenting organisms in water supplies. Abstract 335
Colloids, Bacteria as. Abstract 333
Color variants, A description of some, produced by *Serratia marcescens*, strain 274 57
— variants of *Serratia marcescens* #274 in rapidly growing cultures, The production of stable populations of 69
Colwell, Charlotte A., and Youmans, Guy P. Precipitin production in the albino rat. Abstract 144
Common cold virus inoculations. Abstract 149
Complement fixation, Titration of antipneumococcus rabbit sera by. Abstract 164
Conn, H. J., and Conn, Jean E. A wide-range H-ion indicator produced by an *Actinomyces* species. Abstract 168
—, and —. A wide-range H-ion indicator produced by an *Actinomyces* species. Abstract 168
— and ZoBell, Claude E. Studies on the thermal sensitivity of marine bacteria 223
Connecticut Valley Branch, S. A. B. Proceedings 464
Contamination, The elimination of. Abstract. (No abstract.) 331
Corynebacteria, Porphyrin production by. Abstract 163
Corynebacterium diphtheriae. II. Observations and dissociative studies—the potentialities of the species 755
Cowles, Philip B. A study of the disinfectant concentration exponent. Abstract 466
Crecelius, H. Gilbert. An unusual sarcina form. Abstract 465
Culture media for *Brucella* 643
—, two new, for this organism, Relation of proteolytic enzymes to phase of life cycle of *Bacillus larvae* 723
Curative effect, The, of certain gold compounds on experimental, proliferative, chronic arthritis in mice 823
Curran, Harold R., Evans, Fred R., and Leviton, Abraham. The sporicidal action of hydrogen peroxide and the use of crystalline catalase to dissipate residual peroxide 423
Cytophagas, Studies on the 619

Darby, C. W., and Mallmann, W. L. The use of sodium lauryl sulphate lactose tryptose broth as a primary medium for detection of coliform group. Abstract 143
Darling, Chester A. Some bacteria of the Antarctic. Abstract 461

— supplies, The incidence of slow-lactose-fermenting organisms in. Abstract ... 335
— supply, A spore-forming lactose-fermenting organisms from the Lexington. Abstract ... 464
—, The modern conception of the bacterial quality of. Abstract ... 146
Watson, Robert F., Brown, Thomas M., and Swift, Homer F. Pseudocolonies simulating those of pleuropneumonia-like microorganisms ... 857
Weber, George R., Bender, Richard, and Levine, Max. Effect of ammonia on the germicidal efficiency of chlorine in neutral solution. Abstract ... 145
Weizman, Ch., and Hellinger, E. Studies on some strains of butyric-acid-producing plectridia isolated from hemp, jute and flax ... 665
Werkman, C. H., and Silverman, M. Formation of acetylmethylcarbinol by cell-free juices. Abstract ... 156
— and Slade, Hutton D. The stimulative effect of glucose on the anaerobic dissimilation of citrate by *Streptococcus paracitrovorus*. Abstract ... 158
— and Wood, H. G. The relationship of CO_2 utilization to succinic acid formation by the coliform bacteria. Abstract ... 158
West, Robert A., Jr., Lewis, Keith H., and Militzer, Walter E. Growth of some non-sporulating anaerobic bacteria in synthetic media and extracts from corn silk. Abstract ... 332
Wheeler, Mary W. Porphyrin production by corynebacteria. Abstract ... 163
Willia anomala, Production of citric acid by. Abstract ... 331

Williams, Clara H., Sandholzer, Leslie A., and Berry, George Packer. The inhibition of bacteriophagy by cholesterol and by bacterial and non-bacterial phospholipids 517
Wilson, P. W., and Burris, R. H. Percentage of utilization of substrates by the root nodule bacteria. Abstract 154
Wood, H. G., and Werkman, C. H. The relationship of CO_2 utilization to succinic acid formation by the coliform bacteria. Abstract 158
Woodruff, H. Boyd, and Waksman, Selman A. The soil as a source of micro-organisms antagonistic to disease-producing bacteria 581
Wright, Elizabeth V. Effects of soft x-ray radiations on *Serratia marcescens* and *Pseudomonas aeruginosa*. Abstract 463

X-ray radiations, Effects of soft, on *Serratia marcescens* and *Pseudomonas aeruginosa*. Abstract 463
X-rays, Lethal and dissociative effects of, on bacteria 483

Yeast strains, The biochemical classification of 339
Yeasts and bacteria, A photomicrographic study of the rate of growth of some 247
— occurring on grapes and in grape products in California 395
—, Studies on alcohol tolerance of. Abstract 462
—, The adaptive enzymes of certain strains of. Abstract 166
Youmans, Guy P., and Colwell, Charlotte A. Precipitin production in the albino rat. Abstract 144
— and Liebling, Joseph. The occurrence of diphtheria antitoxin in the human pregnant mother, newborn infant, and placenta. Abstract 147

Zetterberg, Bo, and Sievers, Olof. A preliminary investigation into the antigenic characters of spore-forming aerobic bacteria 45
Zimmerman, Alice, Stuart, C. A., Baker, Muriel, Brown, Carolyn, and Stone, C. M. Antigenic relationships of the coliform bacteria 101
Zinsser, Hans. 1878–1940 747
Zinsser's and Cox's typhus vaccines, Field tests on, in Hungary and Roumania. Abstract 330
ZoBell, Claude E., and Conn, Jean E. Studies on the thermal sensitivity of marine bacteria 223
